

To access your Blue Cross and Blue Shield contract and personal data such as claims submitted and paid, deductible and co-insurance balances, statement of claims processed, etc., you will need to create a User ID and Password if you haven't already.

First time: go to www.bcbsks.com; at the top of the page in the center there will be a BlueAccess Login with a Register right below. Initially to sign up you will need your BCBS insurance card to access certain information. The HR Office does not have the required information to assist you with signing up. View the Member Demo on BCBS website.

Existing accounts: Will need to log-in with their User ID and Password.
