Assessment: Assessment Unit Four Column

Program - Nursing

Mission Statement: The Nursing Program at Seward County Community College prepares competent practical and associate degree nurses to assist in meeting the health care needs of clients by delivering quality wholistic care.

Outcomes	Assessment Tools	Results	Actions
Effective Communication (Written) - Demonstrate effective communication methods to manage client needs and to interact with other healthcare team members (Refer to KBOR ADN Alignment) **Outcome Status:** Active	**Direct -** Patient Teaching/Discharge planning clinical evaluation tool **Benchmark:** 80% of the SCCC nursing students will effectively communicate written patient care needs in written discharge planning and instructions and written patient teaching tools in an effective safe manner 100% of the time. **Schedule:** Collect data each semester Report the results in the fall	**Action Status:** No Action Required **Result Type:** Benchmark Met 88.67% of the SCCC nursing students effectively communicated written patient care needs in written discharge planning and instructions including written patient teaching tools in an effective safe manner. (05/23/2022)	
		Action Status: No Action Required **Result Type:** Benchmark Met 87.5% of the nursing students were able to effectively communicate in a written patient care needs/discharge planning report in a safe and effective manner. One student had a clinical failure and 3 were academic failures (04/26/2021)	
		Action Status: Action Plan in Progress **Result Type:** Benchmark Met 89% of the ADN nursing students and 76.66 of the PN nursing students effectively communicate written patient care needs in written discharge planning and instructions. This data was obtained based on successful completion of each level of the program. Combined data for overall program information is 83%. While the ADN Nursing students meet this benchmark the PN did not. This data was obtained from the completion rate of each level. Will continue to monitor. (05/27/2020)	
Personal and Social Responsibility	**Direct -** Care Plans	**Action Status:** Action Complete	

Outcomes	Assessment Tools	Results	Actions
Learning - Generate teaching and learning processes to promote and maintain health and reduce risks for global populations **Outcome Status:** Active	Teaching Tools **Benchmark:** 100% of the SCCC Nursing Students will be required to participate in at least two community health events and formulate patient teaching tools that help reduce health risks at the community level. 100% of the Nursing students will identify community resources in their nursing practice and identify global risks on care plans and teaching tools 80% of the time. **Schedule:** Annually in August (Review of Service Projects)	**Result Type:** Benchmark Met The nursing students who successfully completed the nursing program completed the assigned community health events. This assignment has been varied over the past 2 years due to COVID 19. The nursing student have been able to further identify global risks on care plans and teaching tools. The level I and level II attrition rate was level I- 83.33, Level II 95%. Combined they were 88.67%. New assessment data will be observed next year. (05/23/2022)	
		Action Status: Action Complete **Result Type:** Benchmark Met The SCCC Nursing Students were able to participate in assisting the Stepping Stone Shelter, and the Seward County Health Department with immunization clinics. Due to COVID 19 the students were not able to participate in the regular community events such as the Seward County Health Fair and Job Fair. The nursing students did work at COVID 19 vaccine clinics helping the Seward County Health Department and the National Guard. (04/26/2021)	
		Action Status: No Action Required **Result Type:** Benchmark Met The nursing students participated in community events and provided information to local residents at the Community Health Fair. (05/27/2020)	
Intellectual Skills (Reading) - Formulate safe and effective clinical judgements guided by the nursing process, clinical reasoning and evidenced base practice (Refer to KBOR ADN Alignment) **Outcome Status:** Active	**Direct -** Kaplan Integrative testing (reading data, assessing and concluding) **Benchmark:** 80% of the enrolled students will obtain a NCLEX probability success score of 65% or greater on the final Kaplan exit exam. The ability to read with precision for this exam directly correlates to the safe and effective clinical judgements, nursing process and reasoning. This data can be pulled from the exit statistics. **Schedule:** Assess end of the semester in May and report Bi-	**Action Status:** Action Complete **Result Type:** Directional Improvement The nursing program has changed to Assessment Technologies Institute (ATI). The nursing program is now utilizing Kaplan and it is the hope to assist the students with content mastery that is needed for successful completion of NCLEX-RN. The use of ATI begins in the pre-nursing phase as students take the TEAs test for entrance into the program. The students then have access to ATI content review modules, testing and proctored exams while in the nursing program. (05/23/2022)	
		Action Status: Action Plan in Progress **Result Type:** Benchmark Not Met The SCCC Nursing Program no longer utilizes the KAPLAN Integrative testing. We now use ATI. Based on the first

Annually on even years

Comprehensive predictor 21 students of 28 met the benchmark of 80%. 7 nursing students did not meet the benchmark. If they were to take the NCLEX RN today this data confirms the downward trend of not meeting the NCLEX benchmark of 80% The pass rate would be 75%. The students continue to work with ATI and will complete another Comprehensive predictor in the future. (04/26/2021)

Action Status: Action Plan in Progress
Result Type: Benchmark Not Met
8% of the ADN nursing students obtained an 65% on the Secure Predictor in the Kaplan Integrated Seminar course. 23% obtained the Secure predictor of 61. Action Plan - changes to the current course with the use of ATI for Spring of 2021. ATI will also be integrated throughout the nursing program as a supplement to the nursing curriculum.

(05/27/2020)
Action Status: No Action Required
Result Type: Benchmark Met
Level I student-83.33%
Level II students-95%
Assists in meeting end of program student learning outcome #4 Formulate safe and effective clinical judgements guided by the nursing process, clinical reasoning, and
evidence based practice. (05/23/2022)

Direct - Clinical Evaluation Tool
Benchmark: 80% of the enrolled students will obtain a 78% clinical evaluation demonstrating effective clinical judgements guided by the nursing process within the clinical setting 100% of the time. Students will demonstrate ability to assist in patient education and safe medication managment.
Schedule: Assess at the end of the semester in May and report Bi-Annually on even years.

Action Status: No Action Required
Result Type: Benchmark Met
This benchmark was met. Students in the clinical setting passed clinical. Level I students and level II students successfully passed the clinical portion of their coursework. Classroom testing was not successfully passed. (05/18/2021)

Action Status: No Action Required
Result Type: Benchmark Met
The program does not allow students who are not successful in the nursing curriculum to progress in the clinical component of the course. The ADN program did not have any clinical failures this year. Failures did occur in the

course setting of the classroom setting. (05/27/2020)

Outcomes	Assessment Tools	Results	Actions
Effective Communication Learning (Oral) - Collaborate with clients and members of the inter-professional health care team to optimize client outcomes. (Refer to KBOR ADN Alighment) **Outcome Status:** Active	**Direct -** Survey to clinical sites regarding oral communication with students, patients and staff **Benchmark:** 100% of the clinical sites report a positive clinical experience and enhanced oral communication with SCCC Nursing Students 85% of the time. **Schedule:** Annually in May	**Action Status:** Action Plan in Progress **Result Type:** Directional Improvement Surveys sent to the clinical sites in December. 50% response rate back. Information received reported that students communicate effectively meeting end of program student learning outcome # 7 Demonstrate effective communication methods to manage client needs and to interact with other healthcare team members. This will require on-going monitoring. (05/23/2022)	
		Action Status: No Action Required **Result Type:** Inconclusive Waiting on survey responses. (04/26/2021)	
		Action Status: No Action Required **Result Type:** Inconclusive Will send surveys in the summer and fall of 2020 for further analysis. COVID-19 prohibited a full spring semester for evaluation. Will follow up on this outcome over the summer of 2020 (05/27/2020)	
Intellectual Skills - Implement professional standards and scope of practice within a legal, ethical, and regulatory frame works (Refer to KBOR ADN Alignment) **Outcome Status:** Active	**Direct -** Classroom presentation Case Studies (Utilization of diversity rubric, critical thinking rubric) **Benchmark:** 80% of the nursing students upon graduation will demonstrate optimal critical thinking/decision making skills in clinical applications of knowledge gained to real nursing applications in the areas of scope of practice, legal, ethical and regulatory framework in diverse populations 100% of the time. **Schedule:** Annually in May	**Action Status:** Action Complete **Result Type:** Benchmark Met This assessment information assesses end of program student learning outcome # 4 Formulate safe and effective clinical judgements guided by the nursing process, clinical reasoning, and evidence based practice, and #2 Implement professional standards and scope of practice within legal, ethical, and regulatory frame works. Level I-83.33% Level II-95% (05/23/2022)	
		Action Status: Action Complete **Result Type:** Benchmark Met Goal met. (05/18/2021)	
		Action Status: Action Plan in Progress	

Outcomes	Assessment Tools	Results	Actions
		Result Type: Inconclusive To follow up with nursing faculty in the fall of 2020 for methods of evaluation. One method of evaluation will be from ethical legal assignment in Client Care Nursing. Will utilize assessment method from ATI software. 89% of the ADN level II nursing students completed the nursing program successfully. (05/27/2020)
